*Relationships Based
On Disciplined
Selective Review
Process*

SAFETY

We pursue relationships with carriers by engaging in a disciplined selective review process. We are committed to finding national, regional and Florida domiciled carriers that complement our growth initiatives and share our vision for long-term growth opportunities in the Florida marketplace.

We will work closely with Condominium Associations and Property Managers to analyze and scrutinize claims to pinpoint potential problems or patterns. This gives the property owners the opportunity to take preventive action before there is a major problem.

*Premier Reinsurance
Providing Significant
Protection*

SECURITY

We focus on carriers that partner with the world's premier reinsurance companies. These carriers and their "blue chip" financial partners create a winning combination that provides significant protection.

*Clear Concise
Straightforward
Answers*

PROTECTION

We followed a deliberate course of strength and determination in our search to partner with carriers that provide clear and straightforward answers about their financial stability without hiding behind technical jargon.

It all boils down to one very fundamental idea. At Safe Harbour Underwriters we believe you and your client have the right to a clear, concise explanation of exactly what protection you are buying, what it costs and why.

Our program is underwritten by primary carriers and their reinsurance partners that have a long-term financial strategy for protecting their customers, shareholders and organizational assets.
